Brief Job Description

As part of the Management team and reporting directly to the Managing Director, you will be responsible for;

- The management of the Operations function of the Company which includes over 90 aircrew, plus associated departments of ground school and simulator instructors employed at RAF Shawbury, RAF Valley and AAC Middle Wallop.
- In addition, you will be an integral part of the various teams assessing business opportunities, their commercial value and preparing bids both in an MOD and commercial/overseas environment.
- You will supervise and oversee the flight safety system and monitor the flying operations.
- You will represent the Company and meet regularly with the Customer and act as the focal point with all CAA matters.
