

Location: Dubai

Job Title: B1 and B2 Type Rated Engineers
Employment Type: Permanent
Reports to: Chief Engineer

Qualifications/Licences

- Must hold a GCAA A6 Type Rated Maintenance Engineer's Licence for either A&C (B1.3) or Avionic (B2) disciplines.
- Holders of non A6 B1.3 and B2 Type Rated Licences (e.g. EASA, CASA) may be considered, however you would be expected to convert to GCAA A6 within 6 months of commencement of employment.
- Preferably you will be the holder of at least one of the following Type Ratings: AW109E, AW139, AB412, B407, AS350B3 and AS365N3.

Additional Information

- You will receive a tax free salary, return paid flights, life assurance, private health care and free bachelor status accommodation.

Brief Job Description

- Working within a shift routine (average 48 hours per week) with 3 in 1 (84 days on 28 off) rotation you will undertake all maintenance tasks on all aircraft allocated to the operation in accordance with the requirements of both GCAA CAR 145 and Company maintenance procedures.
- You will be responsible for the supervision of both technical and non-technical staff allocated to you by the Chief Engineer for specific maintenance or non-maintenance related tasks.
- You will ensure compliance with company and customer Quality Assurance and Technical procedures and the accurate recording and completion of all maintenance data.
- You may be expected to undertake secondary duties as allocated to you by the Chief Engineer, e.g. POL, management, publication control and tool inventory administration.
- You must be flexible and prepared to travel in support of the customer for detached operations e.g. UK (appropriate allowances will be paid).
